DO NOT ACCEPT YOUR DELIVERY without taking note of any damage that might have occurred on the delivery form. Shipping companies will not fulfill an insurance claim without the damage being noted by the customer. We cannot be held responsible for any product or powder coat damage incurred during transit. IF the damage is so severe that it is obvious the product inside has been damaged, do not sign for the item and refuse your delivery. If you sign for the package the shipping company will view it as rightfully yours and that you have accepted it AS IS.

IF the damage is less severe and the goods are intact, you can make a note of the damage on the delivery slip (or electronically with the driver) before signing for the delivery. This will begin the claims process and we will help you file a claim with the shipping company, but it will be your responsibility to replace or repair the product. All awarded claim money will be sent to the customer as reimbursement for shipping damage unless a prior arrangement has been made.

IF the package doesn't require a signature and it has been delivered while you were not present, and you discover that the package has been delivered damaged, please take photos of the damaged package before opening it. Next
